Windows XP 64-bit	Not tested	64-bit Windows Driver
Windows Vista 64-bit	Not tested	64-bit Windows Driver
Windows 7 64-bit	Not tested	64-bit Windows Driver
Windows 8 64-bit	Only preliminiarily tested	64-bit Windows Driver
Windows 2003 Server 64-bit	Not tested	64-bit Windows Driver
Windows 2008 Server 64-bit	Not tested	64-bit Windows Driver

## NH267 Series OS Support List and Driver Download

## **Driver Installation Steps**

Please obtain driver according to the above table and unzip the file into your computer.

Open Windows "Device Manager" and locate "**Multimedia Video Controller**" inside "**Other devices**". If it's 16-channel capture card, you will have **two** such devices. Right click to invoke context menu and select "**Update Driver Software...**".

File Action View Help	
<ul> <li>Z77X_W8</li> <li>Audio inputs and outputs</li> <li>Computer</li> <li>Disk drives</li> <li>Display adapters</li> <li>Mutane Interface Devices</li> <li>Keyboards</li> <li>Mice and other pointing devices</li> <li>Monitors</li> <li>Monitors</li> <li>Monitors</li> <li>Monitors</li> <li>Multimedia Video Controller</li> <li>Multimedia Video Controller</li> <li>Multimedia Video Controller</li> <li>Multimedia Video Controller</li> <li>Disable</li> <li>Uninstall</li> <li>Uninstall</li> <li>Scan for hardware changes</li> <li>Software devices</li> <li>Migh Definition Audio Device</li> <li>High Definition Audio Device</li> <li>Logitech Wireless Headset</li> <li>TW6802 PCI (#Audio)</li> </ul>	

Select "browser for driver..."

Following security notice might appear, select "Install".

For 16-channel capture card, you need to update driver for both devices. When you see the following message, it means the process is completed. The device might not be usable right away and you need to reboot.

After rebooting, open Device Manager to examin if both device are installed properly:
